## Wholesale Order Form 2011

### Open Ground Herbaceous & Pot Grown Liners

**Welcome to our list of open ground herbaceous and pot grown liners which are available from the END OF OCTOBER TO MARCH....**

All the plants have vigorous healthy root systems and are suitable for potting on, planting out and landscaping. These open ground plants are field grown on Grade 1 Lincolnshire silt land. Both the potted and open ground plants are overwintered and grown hardy.

#### What Size Plant?

With open ground the plant size varies with root systems and varieties but a guide is that the plants are large enough to pot in to a 2 or 3 litre pot or split down for a smaller pot size.

#### AVAILABILITY FROM LATE OCTOBER TO MARCH

Early ordering is advisable - we can reserve plants until **early March 2012**

Please specify on your order when you would like delivery and we will endeavour to deliver to your date. We start lifting plants by late October and continue lifting through winter. Weather conditions play a major part in the lifting, distribution and availability of our plants. When some open ground varieties are sold out, we will automatically supply pot grown varieties (if available)

#### ARE LABELS AVAILABLE?

Individual full colour bespoke labels are available for most varieties and will be supplied loose, packed with orders. Colour labels are priced at £60.00/1000

If colour labels are not available for particular varieties we supply thermal printed labels at £35.00/1000.

**Please mark the form if you require labels.**
